

KPN Group Belgium (KPNGB) ZTE has signed a packet switched core network deal with ZTE.

As part of the deal, KPNGB will deploy ZTE's packet switched core network equipment which supports unified radio access. The ZTE's packet switched core network equipment is being deployed to enhance KPN's overall network performance.

The ZTE uni-core solution supports seamless evolution from 2G/3G packet core to evolved packet core, and assists operators in supporting unified 2G, 3G and 4G access.
