

tele.net hosted its fourth annual conference on "Energy Needs of The Telecom Sector: Trends and Outlook: Challenges and Opportunities."

The objective of the conference was to examine the energy needs of the telecom sector, assess the impact of the technology upgradation and network expansion in rural areas, identify the issues and challenges faced by various stakeholders, and discuss the strategies and solutions to address them.

The attached presentation on keynote session on energy storage solutions brings forward the views of Rahul Walwalkar, Vice President-Emerging Technologies and Markets, Customized Energy Solutions
