

Domestic handset manufacturer Intex Technologies has appointed Yashpal Soni as the Chief Information Officer. In his new role Soni will be responsible for the alignment of the company's information technology (IT) strategy with the business strategy, implementation of enterprise resource planning, business process re-engineering and IT risk management.

Soni has over 20 years of industry experience spread across electronic manufacturing, utilities, services and research and development companies in India, the UK and Australia. He is also the member of the CIO Association of India.

Soni has a master's degree in engineering from BITS, Pilani.
