

Bharti Airtel has removed fair usage points (FUP) limits on its broadband connections in Hyderabad to take on Reliance Jio Infocomm Limited's (RJIL) Jio GigaFiber. Additionally, the company has also reduced the offerings from five plans to four plan with all plans offering unlimited free local and STD calls, along with unlimited data bandwidth.

Recently, RJIL had announced the launch of Jio GigaFiber wired home-broadband connection, which claimed to offer up to 1Gbps download speed and up to 100Mbps upload speed and would start in 1,100 cities simultaneously.
