

Cybersecurity startup CloudSEK has raised \$2 million in a pre-Series A round. This round was led by Exfinity Venture Partner and Startup Speed.

Exfinity ventures is investing in CloudSEK from its second fund of Rs 3 billion. With this investment, CloudSEK has become the first bet for Exfinity in the cyber security space.

The Singapore headquartered CloudSEK was founded by Rahul Sasi in 2015 and has an operational centre in Bengaluru. In the same year, the company raised its seed funding from Meeran Foundation, the investment arm of Kochi based Eastern Group.

CloudSEK's artificial intelligence based cyber risk management product XVigil uses real-time data for detection and prevention of cyber threats. It is currently used by companies in the fintech and e-commerce sector.
