

China based Huawei has appointed Bi Yunfeng as the chief executive officer (CEO) of Huawei Technologies' India R&D centre, which is the company's first and largest overseas research and development (R&D) centre.

As part of his new role, Yunfeng will work towards strengthening the R&D capabilities of the centre by collaborating with the industry ecosystem for ICT solutions, lead the R&D center's growth in new business areas, and enhancing Huawei Technologies India's position.

Yunfeng succeeds William Zhao, who has joined Huawei's consumer business group in Shenzhen, China in a leadership role.

Yunfeng had joined Huawei in 2001 as an engineer. Since then he has worked across teams and various product lines including access network, fixed network and storage. He did his masters in computer science from Sichuan University.
