

Amazon.in has partnered Vodafone Idea Limited (VIL) to set up pick-up points for customers. These pick-up points would be set up in Vodafone stores.

The partnership will enable Amazon.in customers to collect their packages from nearest Vodafone store. Customers can select these points as a pick-up location while placing their order on Amazon.in.

At present, Vodafone stores across nine cities including Bengaluru, Mumbai, Hyderabad, Pune, Jaipur, Indore and Ahmedabad are accessible as a pick up point.

The stores have been identified as pick up points on the basis of high customer density.

Amazon.in aims to double its presence across the Vodafone store network by end 2019.
