

DIGISOL has introduced its new wireless green broadband router, DG-BR4000NG. This broadband router enables communication between wireless and wired notebooks/desktop computers in the network and it also allows Internet connectivity to the network.

The DG-BR4000NG wireless broadband router can provide wireless data transmission rate up to 150Mbps which enhances the sharing of files, photo, audio, video and gaming experience over wireless network.

DG-BR4000NG is an energy-efficient router which helps to save power by using advanced power saving technology. The Smart Transmit Power Control mechanism in DG-BR4000NG transmits optimum power depending upon the distance of wireless clients from the router.

The DG-BR4000NG wireless broadband router supports WMM (Wi-Fi Multimedia) technology. With WMM function, the broadband router assigns priority to different types of data for better throughput.

DG-BR4000NG supports robust security using WPA2 Enterprise (802.1x with AES) which enhances the security of wireless network to protect sensitive data from hackers.

The DG-BR4000NG is priced at Rs 1,350.
